TESTIMONIALS

"Saratoga Medical Center flew a team of leadership out to Great Lakes and listened to the legitimate concerns of over 60 future employees in a town hall setting. They took those real concerns back to their HQ and they made changes in the pending contracts that resulted in increased morale within that group of employees immediately. Thank you for listening!"

M. Gilberts, DDS, Dentist at Great Lakes, IL

"I have been in my position for 6 years and the last year I have been with Saratoga. I feel that I always have access to my contacts at the company. They are always quick with an answer and eager to reply. Communication is excellent. They have always been great at keeping me abreast of the status of the terms of my contract. They have provided me with fair compensations and yearly reviews."
